Press Release

Struktol Company of America and APV Engineered Coatings announce a commercial agreement for their complete line of **water-based products: marking inks, tire paints, coatings, lubricants, cements, crayons, and decals.**

*Companies reach agreement to enable joint sales and marketing of APV's water based products in to Mexico, Central America, **strategic segments** of South America, and the Asia Rubber Markets. Struktol Company will concentrate specifically on the tire and hose markets using their technically capable internationally acclaimed distributor network.*

August 10, 2009 - Stow, Ohio: Struktol Company of America® and APV Engineered Coatings®, have announced a sales and marketing agreement. Based on the agreement, Struktol® becomes the sales channel in Mexico, Central America, **strategic segments** of South America, and Asia for APV Engineered Coatings®.

“By working closely with Struktol®, we can provide Rubber Companies with a continued supply of superior products and innovative solutions that they would be unable to get from any other company,” **Erin Brown**, marketing **director**, APV Engineered Coatings®.
