RE: Effects of Hurricanes Harvey and Irma

To our valued customers and business partners,

Struktol Company of America continues to monitor the situation in the Gulf region and Florida. We continue to offer thoughts and prayers to our customers, suppliers and associates directly affected by these events.

We are not currently experiencing any major disruptions of raw material or finished goods supply however we are preparing for what might come in the weeks ahead as our suppliers enter the recovery process and assess their own ability to supply. We remain in daily communication with our network of suppliers to monitor supply situations and pricing changes for our raw materials and packaging. We are also still closely monitoring the availability of transportation that may affect delivery times and dates. We will continue to provide updates and address specific concerns as efficiently as possible. This remains a dynamic situation with expected changes and updates coming in on a routine basis. Please keep checking our website for product supply related announcements or contact your local sales agent or Struktol representatives for any your specific questions related to our products.

As always we appreciate your business and thank you for your patience and understanding during this time. We will post specific product announcements separately should the need arise so please keep checking www.struktol.com for the latest developments.

Sincerely,

The Entire Struktol Company of America Team
